## DETAILED ACTION

### *Election/Restrictions*

Claim 1 is generic to a plurality of disclosed patentably distinct species comprising:

Species I corresponding to Figure 1;

Species II corresponding to Figure 9;

Species III corresponding to Figure 11;

Species IV corresponding to Figure 12;

Species V corresponding to Figure 13.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

(i) In the event Species I (Figure 1) is elected, the Species I is subjected to the following additional restriction requirement for Sub-species comprising:

(a) Sub-species A corresponding to Figures 3-5 & 8;

(b) Sub-species B corresponding to Figures 6-8.

(ii) In the event *either* Species II, III, IV & V (Figures 9, 11, 12 & 13, respectively) is elected, **Figure 10** must also be elected.

**The Applicant should indicate only one of the species group that is elected, such as Group A: Figures 1, 3-5 & 8 or Group B: Figures 1, 6-8 or Group C: Figures 9 & 10, etc.**

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
